Pavilions Pg 60

VINYL

HAMPTON PAVILIONS

Our Hampton Pavilions are made from #1 grade treated Southern Yellow Pine which is wrapped in high quality vinyl. The Hampton comes standard with attractive 10" tapered columns with solid wood posts inside. The posts come with powder-coated anchor brackets at the base of each column to attach directly onto your concrete pad or a wood deck. Our decorative post trim covers all the connections for a clean appearance. The arched headers add charisma and are designed to support heavy roof loads, and resist high winds. The headers are trimmed with our decorative dental molding and feature a 12" roof overhang. The ceiling is made of beautiful 1x6 tongue and groove boards, stained mahogany for a rich appearance. The steeper 7.5/12 roof pitch adds character and is constructed with double main rafters and covered with architectural asphalt shingles. Our Hampton Pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads.

Pavilion Design Options Pg. 88-91

WOOD

ALPINE PAVILIONS

Our Alpine Pavilions are made from Western Red Cedar with Southern Yellow Pine under the roof. All boards are hand-selected for the best possible appearance. The wood is finished with one of our standard colors. The 8x8 posts are laminated and wrapped to resist warping and checking. The posts come with a black powder-coated bracket at each base to attach directly onto your concrete pad or wood deck, and are covered with a decorative skirt for a finished look. The 4x8 half-moon braces add beauty and lateral strength to resist high winds. The engineered 3-ply 6x8 headers are built to span up to 16' long without sagging. The roof is engineered with 2x6 rafters for structural integrity and comes with a 10/12 pitch on units 16' wide and smaller, and an 8/12 pitch on units 18' wide and larger. We use 1x6 pine tongue and groove boards for the ceiling, covered with architectural asphalt shingles. Our rectangle pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. All this comes standard for a strong and beautiful structure.

VINYL

TRADITIONAL PAVILIONS

Our standard Vinyl Traditional Pavilions are made from #1 grade treated Southern Yellow Pine and covered in high quality vinyl. Our posts are built with a heavy-duty wooden 6x6 post, inserted into a low-maintenance vinyl sleeve. Each post comes with a powder-coated bracket at the base to attach directly onto your concrete pad or wood deck, and is covered with a decorative skirt for a finished look. The enhanced arched braces add the stability needed to resist high winds. Our decorative post trim covers all the connections for a clean appearance. Engineered headers are built with 4 ply 2x8s to span up to 18' long without sagging. The roof is engineered with double main rafters for structural integrity. We use beautiful 1x6 tongue and groove boards for the ceiling, stained mahogany. The roof comes with a 6/12 roof pitch and architectural asphalt shingles. Our rectangle pavilions are engineered to withstand 140 mph winds and 45 pounds per square foot snow loads. All this comes standard on your Vinyl Pavilion.

PALATIAN PAVILIONS

Our one-of-a-kind Palatian Pavilion comes in four standard sizes in width: 28', 32', 36', & 40'. The length of this structure is available in multiples of 12' and can extend well past 86' long. This structure comes standard with 8x8 glu-lam posts and 8x10 glu-lam headers for maximum strength. Additional add on options include gutters & down spouts, pent roof, closed gable roof, and even a vaulted ceiling. With a similar look and feel to our Alpine Pavilions the Palatian goes above and beyond and is our largest available structure.

Built in a kit form by leading pavilion experts, this structure can be shipped nationwide and added to any construction project. Simply choose your configuration and finishing details.

ASK US TODAY FOR MORE DETAILS.

VILLA PAVILIONS

The Villa Option is available with our Traditional Wood, Traditional Vinyl, and Hampton Pavilions. These Villas come standard with an unfinished interior perfect for storage or add the option of horizontal 1x6 T&G boards and a linoleum floor to create a back yard office or getaway. The finished interior option comes with a switch to control power to the ceiling and includes electrical receptacles spaced to meet code requirements.

All of our Villas are built strong to meet many of the codes required by local townships. The Villa includes one 15-lite single door.

Add optional windows to fit your needs. The windows and doors include insulated glass, trimmed with 1x3s for added elegance. The Vinyl Villa includes Dutch lap vinyl siding available in eight different colors. Our Wood Villas are available in either cedar or knotty pine siding. Add one of our many stain or paint options to match your home.

HOW TO ORDER

1. SELECT A PAVILION

Choose from any of our standard size wood or vinyl Traditional or Hampton pavilions.

2. SELECT A VILLA

Choose from any of our villas in pine or vinyl, and select a size that is smaller than the pavilion.

3. CHOOSE YOUR OPTIONS

Select the options or accessories you want to add to your villa from the list below.

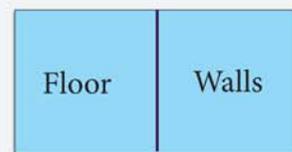

ACCESSORIES

1X6 T&G Interior

Floor & Linoleum

Insulation

Windows

EZ SHADES

Looking for extra sun coverage? We got you covered. Add an EZ Shade product to your outdoor structure and maximize your shaded space. Our manual, one-handed curtains and canopies can offer full coverage on a mid-sunny day. These curtains and canopies are made of durable, easy to clean fabric that's mildew and stain-resistant.

EZ SHADE CANOPY
Westfield Mushroom

EZ SHADE

CANOPY SYSTEM

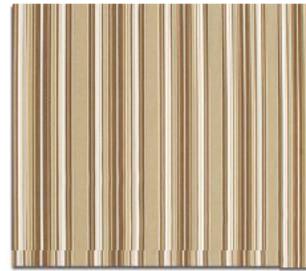

Consider adding this EZ Shade Canopy System to your new or existing pergola. This manually controlled canopy glides effortlessly across the triple track system to shade the entire area. You will find yourself using your patio more often when you can block out that hot mid-day sun, or mild rain. Bring this EZ Shade Canopy System to your backyard oasis.

Choose from one of our available stock colors shown to the right. Other Sunbrella fabrics are available for an additional fee.

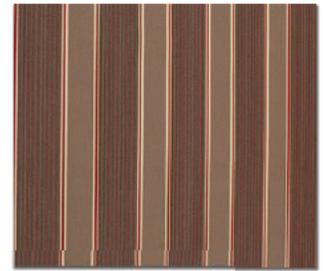

LEFT (Manual Operation) Our EZ Shade Canopy glides smoothly for easy operation.

MIDDLE (Quality Materials) Made from stainless steel fasteners, powder-coated brackets, and Sunbrella fabric.

RIGHT (Full Coverage) Get out of the mid-day sun and enjoy your backyard patio.

EZ SHADE

CURTAIN SYSTEM

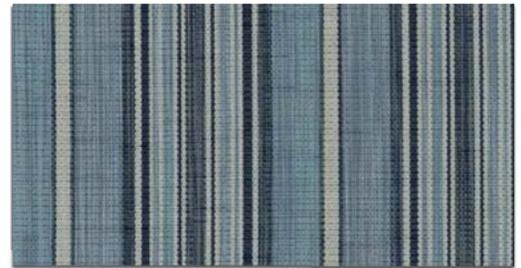

Consider adding this EZ Shade Curtain System to your new or existing pergola or pavilion. This manually-controlled curtain winds down effortlessly and glides down the double cable system to shade the entire area. When not in use the fabric stores inside a custom stained or vinyl box. You will find yourself using your patio more often when you can block out that glaring afternoon sun. The fabric is a dense screen material that has partial transparency. Bring this EZ Shade Curtain System to your backyard oasis.

Choose from one of our available stock colors show to the right. Other Phifertex curtain fabrics are available for an additional fee.

LEFT (Full Coverage) Get out of the mid-day sun and enjoy your backyard patio.

MIDDLE (Manual Operation) Our EZ Shade Curtain is guided by stainless steel cables and lowered using an included hand crank.

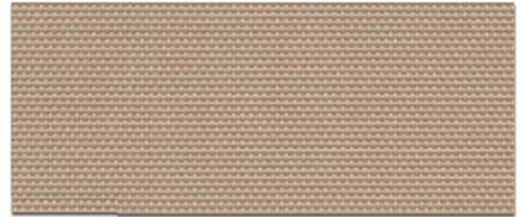

RIGHT (Quality Materials) Made from stainless steel fasteners, powder-coated brackets, and Phifertex fabric.

AVAILABLE OPTIONS

ELECTRICAL PACKAGE

Your structure's electrical package will include 2 boxes (1 outdoor switch & 1 outdoor receptacle) mounted on a post. Each receptacle has two outlets. (15 amp)

This package also includes enough wire (14-2) to run from the base of the post to the top of the structure so you can add a light or ceiling fan. Some structures also include a strip with a routed out groove to conceal the wire on the post.

You will need to have a certified electrician make all connections inside the boxes and to your home.

*Pergola electrical packages include one extra receptacle mounted at the top of a post in lieu of extra wire for a roof.

Extra Receptacle

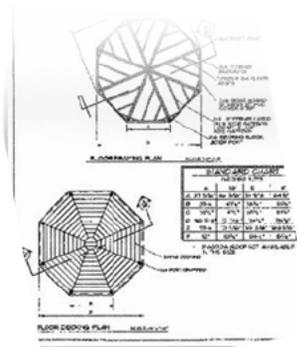

Add additional receptacles to fit your needs.

ENGINEERING DRAWINGS

Engineer drawings available for all Standard Amish-Crafted Gazebos, Pavilions, and most of our Pergolas. Ask your dealer or sales rep for more details.

Site Specific Engineer Certified & Sealed Plans available at additional Cost. Sealed drawings include 3 sets of plans & 2 sets of Calculation Packets.

Engineer drawings available for custom structures at an additional cost.

IMPORTANT NOTICE:

**Excludes custom Gazebos, Pavilions & Pergolas. Engineering is available for custom Structures at an additional cost. Contact your local Dealer for more details about custom projects.
